# Memories that feel like *you*

**At Bingkai, we don't just  
capture how it looked.  
We capture how it *felt*.**

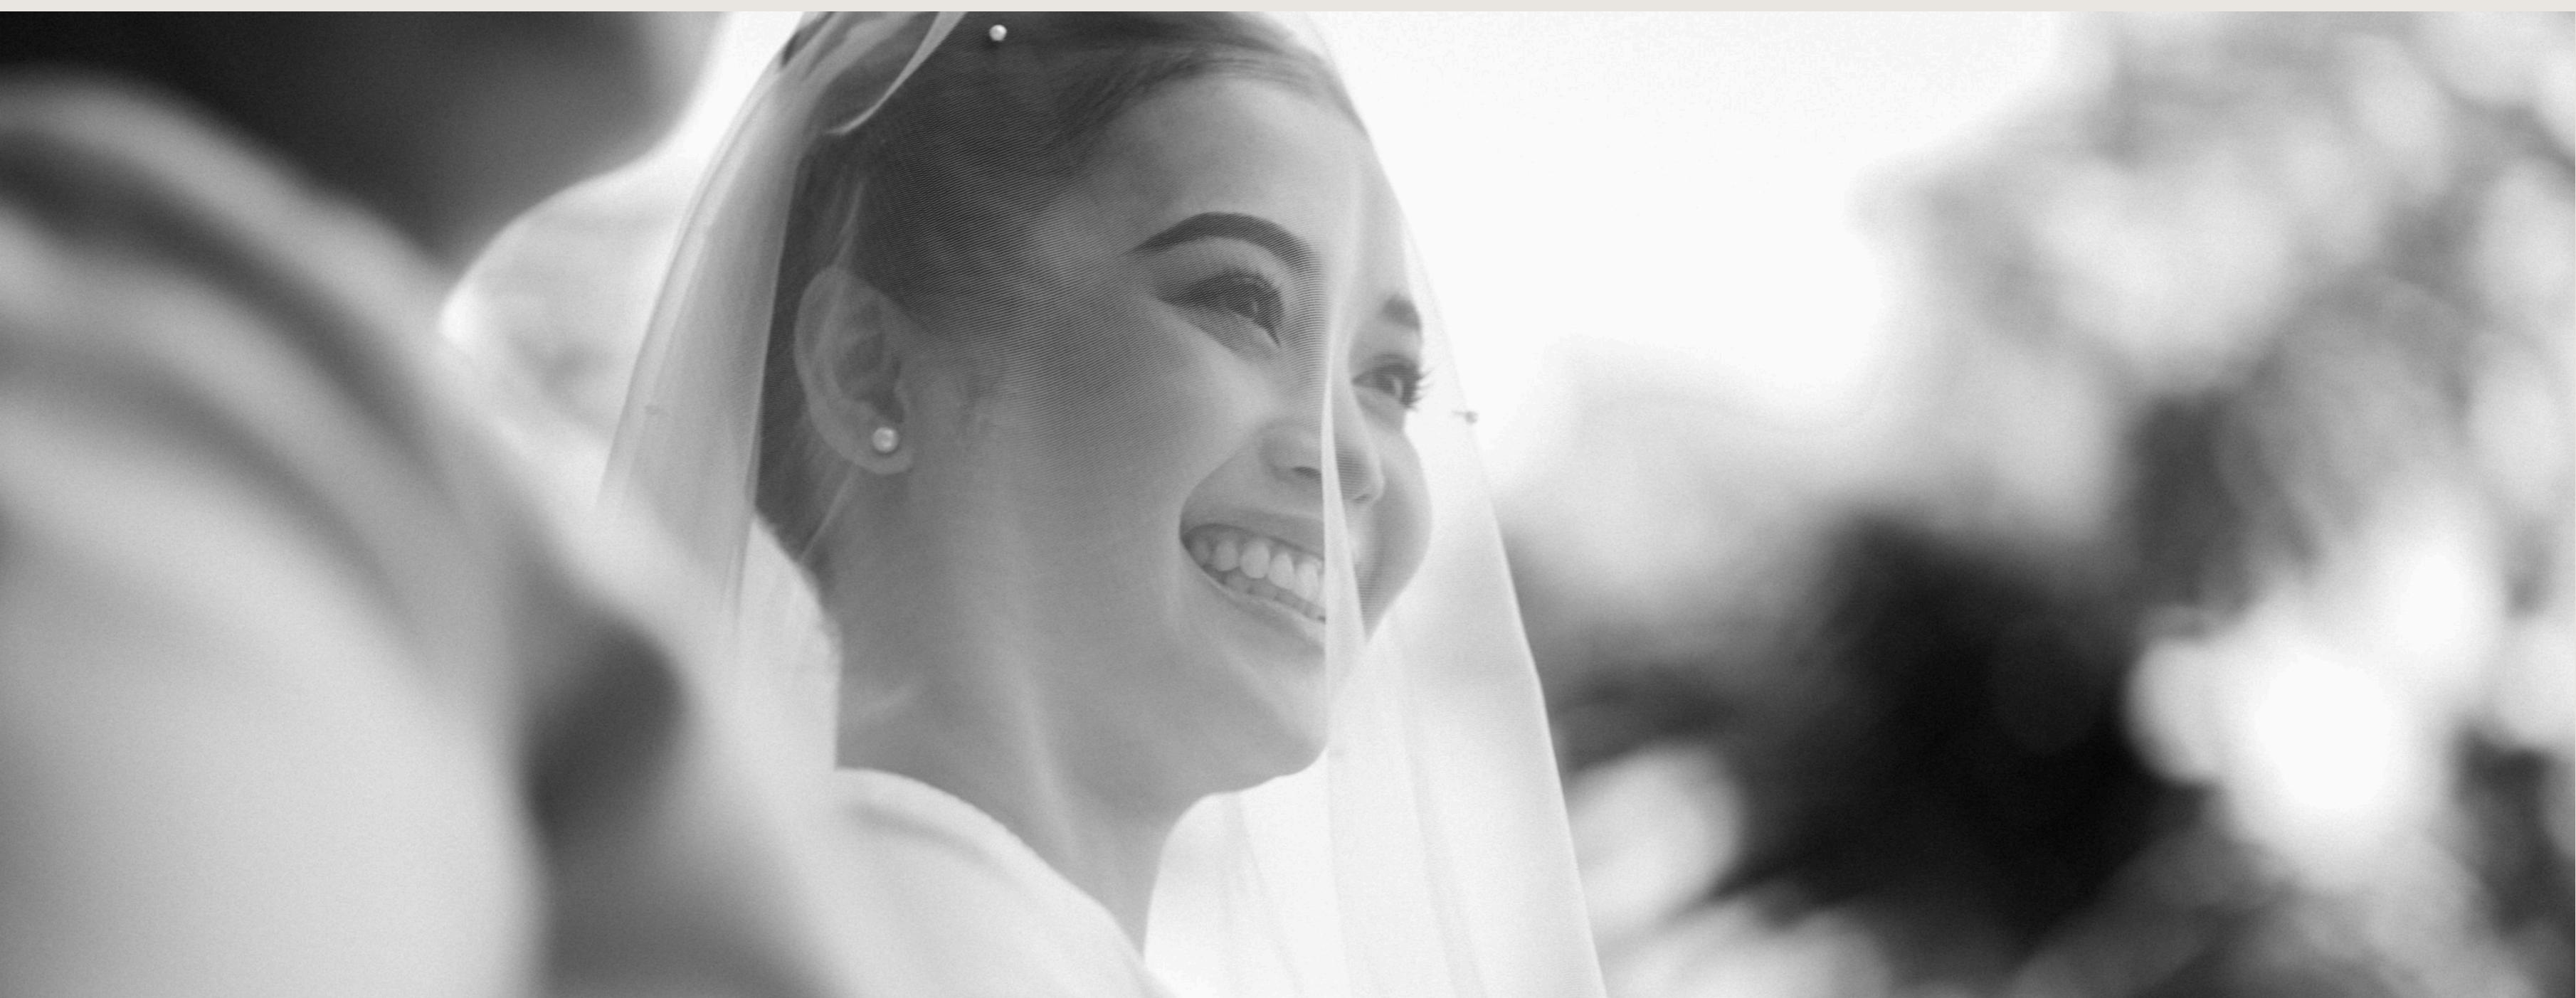

Your wedding is not a photoshoot. It is not a checklist of trends to follow, and it certainly isn't content for an algorithm. It is a messy, beautiful, once-in-a-lifetime collision of the people you love most.

***No scripts. No performances. Just your story, told honestly.***

We believe the best photos aren't the ones where you are perfectly posed; they are the ones where you didn't know we were there.

We command the background so you can be present in the moment. We are searching for the split-second your grandmother wipes a tear, the roar of laughter during the speeches, and the quiet squeeze of a hand under the table.

Twenty years from now, we want our work to transport you back. We want you to hear the crack in your father's voice, feel the humidity of the evening air, and relive the joy exactly as it happened.

# Two ways to tell your story

## Intimate. Sacred. Undistracted

WHY YOU SHOULD UPGRADE

# The Signature Difference

## THE COMPLETE NARRATIVE

Real storytelling captures the whole room. We combine professional audio recording to preserve your vows with a **Dedicated Guest Photographer** to capture your loved ones. You get the emotional depth of the speeches and the candid joy of your guests—ensuring the entire atmosphere is documented.

## THE MASTER ARCHIVE

You should own your history, not just rent it. While most studios delete raw data, we deliver a physical hard drive containing every **Raw Video file and High-Res photo** captured. This is your master archive, ensuring you have the original, uncompressed source material forever.

## THE HEIRLOOM ALBUM

Digital files can get lost in the cloud, but a book lasts for generations. We include a **Premium 12x12" handcrafted hardcover album** to ensure your legacy isn't just a file on a screen. It is a tangible artefact that you can hold, share, and pass down.

## WHAT SHOULD YOU KNOW?

# Frequently Asked *Questions*

## We are camera shy. Do you direct us?

Absolutely. But we hate stiff poses as much as you do. We simply place you in the best light and let you be yourselves. Our goal is to make you forget the camera is there, so we can capture the real connection, not a performance.

## What is the difference between the Essential and Signature collections?

1. The Essential focuses on atmosphere. It is designed for couples who want a stylish, high-energy documentation of the "vibe." The film is music-driven, and the photography covers the key aesthetic moments.
2. The Signature focuses on legacy. It is a complete documentary approach. The film includes real audio (vows/speeches), and the photography is expanded to include a Dedicated Guest Photographer and editorial story curation. If you want the full story—voices, guests, and all—Signature is the choice.

## How long is the delivery time?

Great art takes time. We hand-edit every image and color-grade every frame of your film.

- Highlight Film & Online Gallery: 8-12 Weeks.
- Physical Album & Hard Drive: 3-4 Months (depending on your layout approval).
- Need it faster? We offer a "Fast Edit" (7-Day) service as an add-on.

## Can we split the hours between two days?

Our collections are designed for consecutive coverage on a single day. However, for multi-day events (e.g., Nikah on Friday, Sanding on Saturday), we can customise a quote with a Split Day Surcharge or recommend booking a separate Intimate/Essential session for the smaller event.

## Do you provide the Raw Files?

We believe you should own your history.

- Essential Collection: No, we deliver the curated final edits. However, you may purchase the Raw Archive as an add-on if you wish to have them for safekeeping.
- Signature Collection: Yes, a physical hard drive with all Raw Video + High-Res Photos is included.

## Who will be shooting our wedding?

Bingkai is a team of senior creatives trained under the same "Visual Director" philosophy.

- Signature: Includes Wan Amir and Faiz (if available) or a Senior Lead + a Senior Second + Guest Photographer.
- Essential: Includes a Senior Lead per service.
- We do not outsource to random freelancers; you always get a Bingkai team member.

## THE PROCESS

# How we Work

### 1. The Connection

If our manifesto resonates with you, fill out the inquiry form. Tell us a bit about your story—we want to know who you are, not just when you are getting married.

### 2. The Vibe Check

We will jump on a quick video call. Since we will be shadowing you on your most intimate day, it is crucial that we actually like each other. If the chemistry is right, we move forward.

### 3. The Commitment

To secure your date, we require a 20% retainer and a signed agreement. The bulk of the balance (60%) is due 30 days before the wedding, leaving you stress-free on the big day

### 4. The Experience

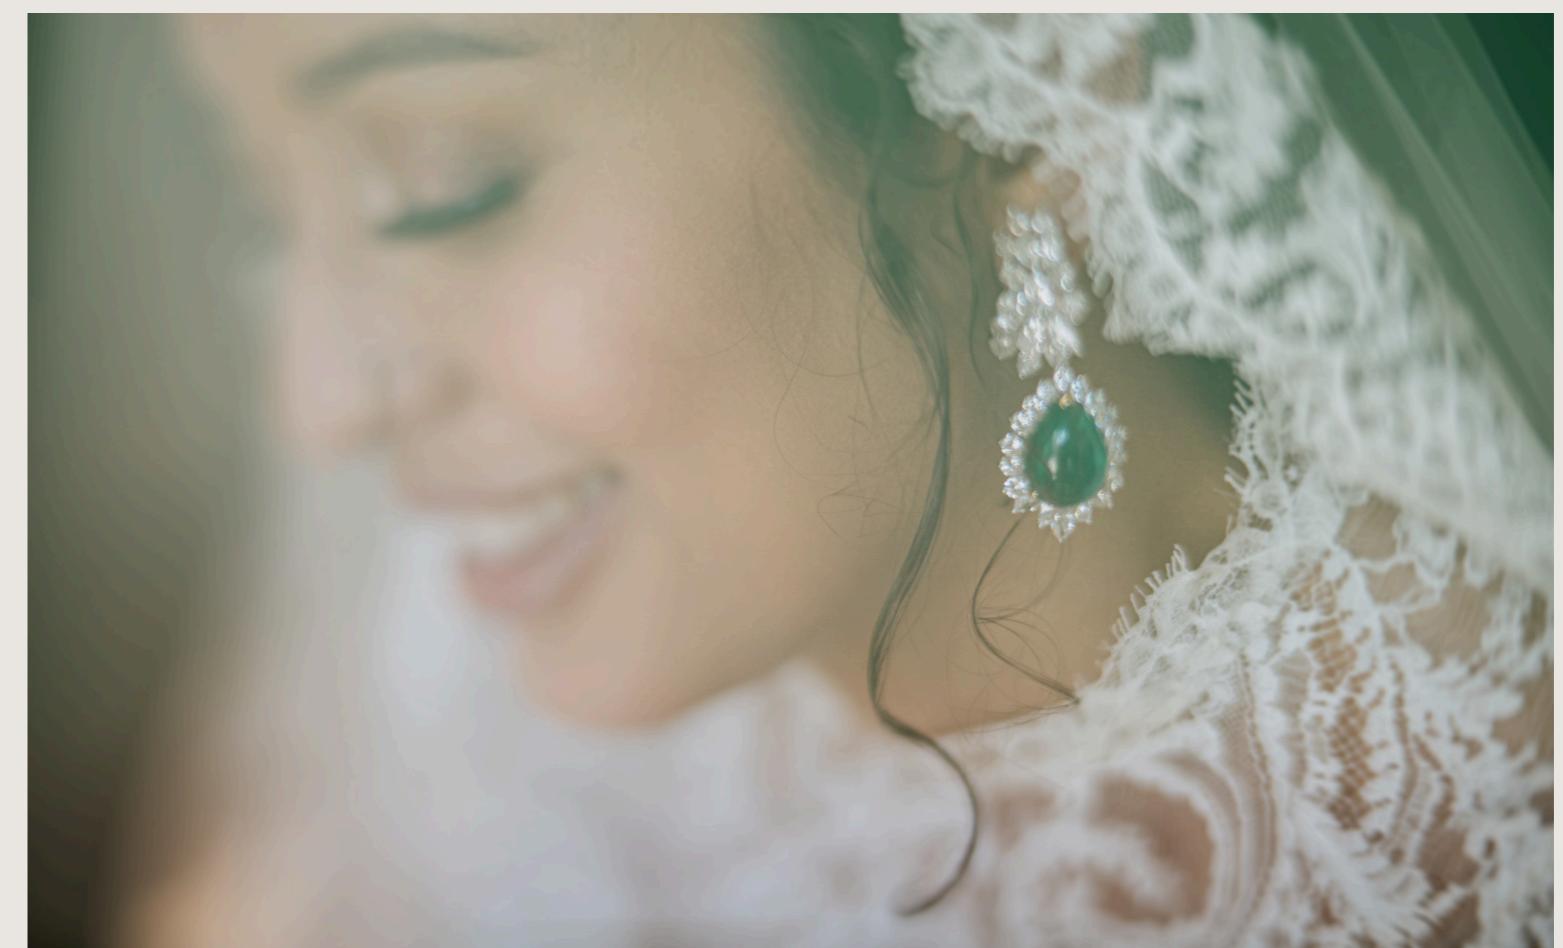

On the day, you simply live your life. We don't turn your wedding into a production set. We step back, let the chaos and joy unfold, and capture the moments you didn't even know happened.

### 5. The Archive

About 8-12 weeks later, you settle the final 20% and receive your full gallery and film. This is where the magic happens—when "content" turns into history.
